**CLEAN & REMOVES NOISE THE CURRENT USE FOR
HIGH-END AND HI-FI EQUIPMENT**

All your appliances, like light dimmer, power tools, hair dryer, refrigerators, microwave oven etc, can generate electromagnetic interference and radio frequency noise.

So in both audio and video performance, you will hear a loss of dynamic range with a compressed sound stage, a lack of sharpness and color detail plus imprecise imaging.....

Used our product, can reduce electronic noise on your AC power line, and give you the best sound and picture.
